Dividend Forecasting Service

Dividend Forecasts for 25,000+ securities globally

Comprehensive, accurate dividend forecast data for equity shares and ETFs

Our forecast predict when and how much 25,000+ securities will pay out in dividends during the coming two full fiscal years.

These forecasts are valuable for activities including stock selection, income planning, option pricing and dividend capture.

Algorithmically calculated and manually analysed, we work from a huge database of corporate actions to build up patterns and forecast with a high level of accuracy.

The data can be accessed via API, via a regular push in flat-file format, or via direct login.

Features:

- 25,000+ securities incl. 1,400+ ETFs
- Equity, ADR and ETF dividends
- 'Algorithm+analyst': automated calculations, manually analysed
- 1000+ indices across 100+ countries
- 2 full fiscal year outlook
- All dividend types and frequencies
- API, flat-file download or site login
- Forecasting dividends since 2011
- Dividend history since 2012

Overview
