Pricing Data

Worldwide End-of-Day Prices – Equities, Bonds and Indices

Mark-to-market your positions and settle transactions on a timely basis

The closing price is considered the most up-to-date, standardized valuation of a security until trading commences again on the next trading day. This data is used for portfolio valuation, index calculation, technical analysis and benchmarking throughout the financial industry.

The End-of-Day Pricing service covers **equities, equity derivative bonds, and indices listed** on 170 markets worldwide.

Obtain fast access to accurate closing pricing data

The closing price feed comprises a set of daily exchange price files for EMEA (Europe, Middle East, and Africa), Asia/Pacific and the Americas. Data elements include

- | | | |
|----------------|---------------------|------------------------|
| ▪ Ask | ▪ ISIN | ▪ Security Description |
| ▪ Ask Size | ▪ Issuer Name | ▪ Security ID |
| ▪ Bid | ▪ Last | ▪ Security Type |
| ▪ Bid Size | ▪ Low | ▪ Total Trades |

Additionally, to the official confirmed prices, the pricing service also provides unconfirmed prices for all the major markets as well as adjustment factors.

Adjusted Pricing Data

Compare historical pricing data with current prices and conduct detailed analysis.

- Ready to use adjusted closing pricing file
- Load adjusted closing price data onto your system directly, without having to worry about applying the adjustment factors

Adjustment factors

Have full control over events or factors for which you adjust and perform your own historical adjustments.

Worldwide Equity Derivatives End of Day Prices

Data elements include

- High
- Low
- Open
- Close
- Open Interest
- Number of Trades
- Volume Traded

Choose to receive derivative end-of-day pricing data by exchange, portfolio or on a global basis.

Foreign Exchange Rates

We provide foreign exchange rates data for 168 currencies including Euro legacy ones.

The file can be customised to only include the currencies of interest and additional fields like the reverse rate. We offer three base rates options: USD, GBP, EUR.

Feed Specifications

End-of-Day Price Files

EDI's End of Day Pricing feed is delivered by FTP connection, Dropbox or Amazon S3. Clients have a choice between receiving price files stored in folders named using the ISO country code, which contain the last 20 days of data, and receiving one folder with all price files, containing data of the last 6 days.

*Code	Char	Char String	10		Code data value
Lookup	VarChar	Char String	70		Lookup value for Code (previous field)

Notes on the Lookups

Combined lookup table where codes of a particular type are grouped by TypeGroup

Join using the Typegroup of the coded field data and the coded data field content to get the lookup

Only field containing coded date has the Typegroup column populated.

This table also gives all the POSSIBLE VALUES.

Because it is combining multiple coded types, the format of the field must accommodate the largest possible code in the whole system hence the slight apparent incompatibility in length between to joining fields.

Customization

EDI is proud to offer the most effective and efficient solutions tailored to meet each individual customer's needs. We offer a range of customization options including:

- Delivery-based solutions to complement existing client infrastructure.
- Content provided at the geographical or portfolio holding level.
- Feeds containing particular formats, field content and integrated client level data items.

EDI uses its extensive data research expertise to source, scrub and integrate new client specified data items with existing products and services. For instance, a request from a multinational investment bank to source the DR universe and map it against its underlying share portfolio ultimately led to the development of EDI's successful Depository Receipt Database.

In addition, EDI was the first vendor to successfully launch an ISO 15022 Corporate Action Messaging feed. This enables customers to reduce costs and increase efficiency by removing the need for multiple feed handlers.

Support

Customer Support

Monday – Friday
Open 24 hours

Saturday
12AM - 8AM (GMT)

Sunday
11PM-12AM(GMT)

Call +44 207 324 0020

Email: support@exchange-data.com

Customer support is closed Christmas and New Year's Day.

We aim to acknowledge all queries within an hour of receipt and answer queries within 24 hours where possible.

We will send a progress report if a query is not resolved within that time-frame. We resolve around 95% of customer queries within 24 hours.

All queries sent to our Support department are filtered and dispatched to the relevant department. An IT staff member is engaged in the communication process to resolve complicated technical issues.
