

Doing data differently

Helping the global financial community make informed decisions through the provision of fast, accurate, timely and affordable reference data services

With more than 20 years of experience, we offer comprehensive and complete securities reference data for equities and fixed income instruments around the globe.

Our customers can rely on our successful track record to efficiently deliver high quality data sets including:

- Worldwide Corporate Actions
- Worldwide Fixed Income
- Security Reference File
- Worldwide End-of-Day Prices

Exchange Data International has recently expanded its data coverage to include economic data. Currently it has three products:

- Global Economic Data
- African Economic Data www.africadata.com
- Economic Indicator Service (EIS)

Our professional sales, support and data/research teams deliver the lowest cost of ownership whilst at the same time being the most responsive to client requests.

As a result of our on-going commitment to providing cost effective and innovative data solutions, whilst at the same time ensuring the highest standards, we have been awarded the internationally recognized symbol of quality ISO 9001.

Headquartered in United Kingdom, we have staff in Canada, India, Morocco, South Africa and United States.

Introduction to WCA

The **Worldwide Corporate Actions** service is a cost-effective solution that helps customers manage corporate action information. Since its launch in April 2002, EDI has constantly developed this service to meet clients ever changing needs. In the first half of 2008, Exchange Data International concentrated on strengthening its corporate actions service by widening their security coverage to structured products and covered warrants. In addition, EDI have also added bonds that trade as equities. This means that if a security is a bond but treated and settled as an equity it will be included in our equity offering.

This service covers over 100 countries. Announcements are directly sourced from exchanges and other sources globally, making a total of 400 sources on a daily basis. Our database is updated four times a day to ensure that customers receive timely information in respect of each geographic region. Asia/Pacific, Europe/Middle East and Americas are uploaded according to the different time zones.

The **Worldwide Corporate Actions** service is programmed in the ISO 15022 message standard. And as a result, announcements are available in MT564 and 568 formats, and firms can easily populate mainframe systems and in-house security portfolios. **EDI is ISO 15022 2015 compliant.**

This Service is available either via a web-interface or a SFTP connection. An API will be available at the end of the second quarter 2020.

The web-based application offers:

- Key search facilities
- Key data calendar
- Event announcements
- Portfolio import facility
- Download capabilities.

Subscribers of the web service also receive daily emails of new announcements for stocks in their portfolio and their selection of events.

Different Types of Corporate Action Feeds

All these corporate actions files include the same corporate actions announcements and the only difference is the inclusion of certain identifiers

ISINs Format

680 file – corporate actions announcements with ISINs and no SEDOLs

683 file – corresponding security master file with ISINs and no SEDOLs

SEDOL Format

690 file – corporate actions announcements with SEDOLs included along with ISINs – license with LSE is required for SEDOLs

693 file - corresponding security master file with SEDOLs included along with ISINs – license with the LSE is required for SEDOLs

FIGIs Format

695 file – corporate actions file with FIGIs codes and no SEDOLs included

698 file - corresponding security master file FIGIs codes and no SEDOLs included

Detailed Note File

689 file – Detail notes files associated with all the corporate actions announcements files

685 file format – Customize file format with security master file with SEDOLs and FIGIs codes included along with shares listed and outstanding. License with the LSE required for SEDOLs

Event Coverage: Security Level

The current WCA feeds comprehensively covers all corporate actions events affecting global securities but can easily be customized to client's requirements in terms of geographical coverage or event types.

For each event covered by the WCA service we provide the following fields enabling an easy identification of the security affected by the event and the type of the event:

- Event type
- Creation Date
- Change Date
- Issuer Name
- Country of Incorporation
- Instrument Type
- Security Description
- Par Value
- Currency
- ISIN, US Code, Local Code
- Primary Exchange
- Exchange & Country
- Country of Registration
- Listing Status
- Listing Date

As mentioned before the WCA services provided detailed information on crucial corporate actions events affecting securities worldwide. EDI has recently incorporated Financial Instrument Global Identifiers (FIGI) into the WCA service, so users can now request to add these identifiers to their feed and easily cross-check both data sets.

Below is the list of the events currently covered and their specific fields:

General Events

- **Announcement:** Notification Date; Related Event; Related Event ID; Notes
- **Arrangement:** Record Date; Ex Date; Pay Date; Record Date ID & Notes; Registration Date; Priority; Notes
- **Call:** Record Date; Call Number; Currency; Due Date; Amount apportioned to Face Value; Amount Apportioned to Share Premium Account; Record Date ID & Notes; Registration Date; Priority; Notes
- **Company Meeting:** AGM Date; AGM Time; Meeting Type; Financial Year End Date; Address
- **Lawsuits/Class Actions:** Effective Date; Notes
- **Listing Status Change:** Notification Date; Effective Date; Related Event; Related Event ID; Reason Static Data Change Events

- **Financial Year Change:** Previous & New Financial Year Start Date; Previous & New Financial Year End Date
- **Incorporation Change:** Effective Incorporation Change Date; Previous & New Country Code; Related Event; Related Event ID

Customization

EDI is proud to offer the most effective and efficient solutions tailored to meet each individual customer's needs. We offer a range of customization options including:

- Delivery-based solutions to complement existing client infrastructure.
- Content provided at the geographical or portfolio holding level.
- Feeds containing particular formats, field content and integrated client level data items.

EDI uses its extensive data research expertise to source, scrub and integrate new client specified data items with existing products and services. For instance, a request from a multinational investment bank to source the DR universe and map it against its underlying share portfolio ultimately led to the development of EDI's successful Depositary Receipt Database.

In addition, EDI was the first vendor to successfully launch an ISO 15022 Corporate Action Messaging feed. This enables customers to reduce costs and increase efficiency by removing the need for multiple feed handlers.

Support

Customer Support	
Monday – Friday Open 24 hours	
Saturday 12AM - 8AM (GMT)	Call +44 207 324 0020
Sunday 11PM-12AM(GMT)	

Email: support@exchange-data.com

Customer support is closed Christmas and New Year's Day.

We aim to acknowledge all queries within an hour of receipt and answer queries within 24 hours where possible.

We will send a progress report if a query is not resolved within that time-frame. We resolve around 95% of customer queries within 24 hours.

All queries sent to our Support department are filtered and dispatched to the relevant department. An IT staff member is engaged in the communication process to resolve complicated technical issues.
