

Doing
data
differently 

Helping the global financial community make informed decisions through the provision of comprehensive, accurate, timely and affordable securities and economic data services

With more than 25 years experience, we offer comprehensive and accurate securities reference, corporate actions and pricing data for derivatives, equities, fixed income, and investment funds around the globe. We also cover economic data extensively.

We understand how crucial financial and economic data is and take a different approach as to how we proceed:

- We do not rent data, we sell it
- We do not have onerous redistribution rules
- We customize our services to meet your needs
- We cover all countries - no matter how large or small
- Finally, we are the cheapest

As a result of our on-going commitment to providing cost-effective and innovative data solutions, while ensuring the highest standards, EDI has achieved the internationally recognized quality and security certifications ISO 9001 and ISO 27001.

Headquartered in the United Kingdom, we have operations in Australia, Canada, Germany, India, Morocco, South Africa and the United States.

Our Support Team is available on **+44 (0) 207 269 8915**, 24 hours a day, Monday to Friday and closed on Christmas and New Year's Day.

Foreign Investment Details

Foreign Investors

A Foreign investor can be either a natural person or a corporation/company, who have made an investment in business interests located in another country.

Total number of stocks held directly by foreigners

It indicates the total number of shares held by foreign stockholders in a company.

Direct holding ratio by foreigners

The foreign investors' holding ratio is ratio in between the total number of stocks held by the foreigners and total number of outstanding shares issued by the company.

Upper limit on foreign investment

Upper limit on foreign investment is the maximum investment level allowed by the government to the foreign person/company.

Delivery

The information can be loaded into internal systems that allow trading and settlement engines to accurately calculate whether a transaction will breach the limits.
