

Doing data differently

Helping the global financial community make informed decisions through the provision of fast, accurate, timely and affordable reference data services

With more than 20 years of experience, we offer comprehensive and complete securities reference and pricing data for equities, fixed income, and derivative instruments around the globe.

Our customers can rely on our successful track record to efficiently deliver high-quality data sets including:

- Worldwide Corporate Actions
- Worldwide Fixed Income
- Security Reference File
- Worldwide End-of-Day Prices

Exchange Data International has recently expanded its data coverage to include economic data. Currently, it has two products:

- Economic Indicator Service (EIS)
- Global Economic Data

Also, EDI has partnered with other specialist data providers to provide certain niche products. All their data is available under the same EDI contract.

Our professional sales, support and data/research teams deliver the lowest cost of ownership whilst at the same time being the most responsive to client requests.

As a result of our on-going commitment to providing cost-effective and innovative data solutions, while ensuring the highest standards, EDI has achieved the internationally recognized quality and security certifications ISO 9001 and ISO 27001.

Headquartered in the United Kingdom, we have staff in Australia, Canada, China, Germany, Hong Kong, India, Malaysia, Morocco, South Africa and the United States.

Our Prices Support Team is available on **+44 (0) 207 269 8915**, 24 hours a day, Monday to Friday and closed on Christmas and New Year's Day.

About Orbit Financial Technology

Orbit Financial Technology are a text analytics and AI computing vendor that help global financial institutions to make smarter and more informed decisions.

The company was founded with the aim of developing a combination of the world's first software products and services for the application of sentiment-based text analytics. Our products fully exploit the latest cutting-edge natural language processing, (NLP), Artificial Intelligence (AI), and big data technologies. We provide solutions to support customized computing that have never existed in the financial industry before.

Product Information

China is the second largest economy in the world, and its stock market capitalization is also ranked just next to U.S. Due to the less matured governance and language barrier, it is difficult for foreign investors to understand China A listed companies and the China economy in general. Orbit is launching the earning call transcript dataset with the highest data quality for all types of investors, from long only, proprietary to quantitative funds, from buy-side to sell-side.

Dataset Description

- Coverage: cover all the China A listed companies
- Content:
 - Earning Call Transcripts
 - Public disclosures on broker onsite research
 - Executive official responses on online platforms
- Language: Chinese and English (machine translation + human verification)
- Format: JSON/XML with tags on timestamps, statement, question and answer
- Update frequency: Daily/Real-time
- Delivery: AWS S3

Metadata File Format

Metadata csv contains below columns:

Stockcode
exchangecode
uploadtime
transcript_start_date_time
transcript_end_date_time
transcriptuniqueid
file_name
title_en/title_cn
version_id

typesOfInvestorRelationsActivities**Transcript File Format**

Json file contains below keys:

"content" – detailed transcript

}

versioned – version of the transcript, all defaulted to be 1 for now

uploadtime – date and time when transcript file is uploaded to Orbit S3 bucket

Customization

EDI is proud to offer the most effective and efficient solutions tailored to meet each individual customer's needs. We offer a range of customization options including:

- Delivery-based solutions to complement existing client infrastructure.
- Content provided at the geographical or portfolio holding level.
- Feeds containing particular formats, field content and integrated client level data items.

EDI uses its extensive data research expertise to source, scrub and integrate new client specified data items with existing products and services. For instance, a request from a multinational investment bank to source the DR universe and map it against its underlying share portfolio ultimately led to the development of EDI's successful Depository Receipt Database.

In addition, EDI was the first vendor to successfully launch an ISO 15022 Corporate Action Messaging feed. This enables customers to reduce costs and increase efficiency by removing the need for multiple feed handlers.

Support

Customer Support

Monday – Friday
Open 24 hours

Saturday
12AM - 8AM (GMT)

Sunday
11PM-12AM(GMT)

Call +44 207 324 0020

Email: support@exchange-data.com

Customer support is closed Christmas and New Year's Day.

We aim to acknowledge all queries within an hour of receipt and answer queries within 24 hours where possible.

We will send a progress report if a query is not resolved within that time-frame. We resolve around 95% of customer queries within 24 hours.

All queries sent to our Support department are filtered and dispatched to the relevant department. An IT staff member is engaged in the communication process to resolve complicated technical issues.
