

Doing data differently

About African Financial & Economic Data (AFED)

Good Decisions Depend on Good Data

African Financial & Economic Data (AFED), a product of Exchange Data International (EDI), provides definitive financial and economic intelligence on all 54 African economies and their financial markets.

AFED is a comprehensive, consolidated and above all clear service providing interested parties in African countries with the detailed economic information they need to make good political, financial, strategic and investment decisions.

The information can be used to assist you in:

- Research and analytics.
- Thought leadership and opinion.
- Editorial.
- Collaboration and outreach.

AFED aggregates data primarily from local sources into one platform and provides it in a standardized format offering target markets with a direct access to the data they need. The local sources are complimented with carefully selected indicators from a few international sources such as International Monetary Fund (IMF), African Development Bank (AfDB), etc. All data is updated daily.

Apart from their African Financial & Economic database (AFED), EDI has expanded its economic data coverage to include global economic data. Currently, it has two global economic products:

- Economic Indicator Service (EIS)
- Global Economic Data

About Exchange Data International (EDI)

With more than 28 years' experience, we offer comprehensive and accurate securities reference, corporate actions and pricing data for derivatives, equities, fixed income, and investment funds around the globe. We also cover economic data extensively.

We understand how crucial financial and economic data is and take a different approach as to how we proceed:

- We do not rent data, we sell it
- We do not have onerous redistribution rules
- We customize our services to meet your needs
- We cover all countries - no matter how large or small
- Finally, we are the cheapest

As a result of our on-going commitment to providing cost-effective and innovative data solutions, while ensuring the highest standards, EDI has achieved the internationally recognized quality and security certifications ISO 9001 and ISO 27001.

Headquartered in the United Kingdom, we have operations in Australia, Canada, Germany, India, Morocco, South Africa, and the United States.

Our Support Team is available on +44 (0) 207 324 0020, 24 hours a day, Monday to Friday and closed on Christmas and New Year's Day.

Data Hub

The Data Hub allows users to query each of the available four datasets individually, produce time series analysis, extract the customised reports and easily commingle datasets.

Economic Data

Access +15.5 million data records for +13,500 key economic and financial data indicators.

AFED aggregates macroeconomic data primarily from local sources into one data platform. In addition, there is also access to international and regional sources.

There are indicators published as soon as they become available and often with several sources, thus giving the client the choice of which sources to use.

The data is reported as published by the source and categorized into 13 main groups to enable quick and easy access to specific data points:

- National Accounts
- Government Finance
- Money & Banking
- Inflation, Prices & Wages
- Balance of Payments & Trade
- Total Debt: Domestic & External
- Business & Industry
- Resources & Energy
- Employment, Income & Poverty
- Politics, Government & Society
- Population & Health
- Education
- Geography & Environment

Customize and export reports based on country or topic of interest and easily compare sources. Display data visually using sophisticated charting functionality.

Exchange Rates

Monitor daily market exchange rates and retrieve historical daily rates dating back to 1st January 1999.

Interest Rates

Monitor key interest rates issued by African countries and easily retrieve any of the rates based on country, rate type, frequency and year.

Calendars

Use the Events Calendar dataset to keep up-to-date with forthcoming:

- Public Holidays
Indicates when banks, stock exchanges and other financial institutions are closed for business.

- **Economic Calendar**

Provides the customer with expected and confirmed releases on local and international sources as well as release AFED publish dates. Search calendars by country or date range. Add events you are interested into a watch list. Receive email alerts when the status of an event changes.

Data Consultancy

In many situations, businesses often struggle to process data into actionable format and insights due to a lack of resources, time, and proper understanding. This is where we can help to interpret the data to your best advantage.

As part of our many data solutions, we can help to conduct research and gather information of any specific topic, sector, or market. We have the capability to collect, analyse, and report data that can be used for problem solving and decision-making. Not only do we gather the data in a usable format, but we can also put the results into a logical descriptive manner. Contact [Ilze Gouws](#) for an example of a short case study.

Delivery Mechanism

The data is available via:

- The online platform
- SFTP Feeds
 - *Data Hub > Economic Data*
 - *Data Hub > Key Interest Rates*
 - *Data Hub > Economic Calendar*
- API

Customization

Take advantage of having effective and efficient solutions tailored to meet your needs. Customisation options include:

- Delivery-based solutions designed to complement your existing infrastructure.
- Content provided at the geographical or topic level.
- Feeds containing particular formats, field content and integrated client level data items.

EDI is expert in sourcing, scrubbing, and integrating customised data items with existing products and services.

Support

AFED's support team is readily available to provide help and advice.

All queries are acknowledged within an hour of receipt and the support team aims to provide answers within 24 hours where possible.

In addition, the support team includes an IT expert who is on hand to resolve complicated technical issues.

AFED's support team is located at its London office. The support team is available 24 hours a day, Monday to Friday except Christmas and New Year's Day when we are closed.

Customization

EDI is proud to offer the most effective and efficient solutions tailored to meet each individual customer's needs. We offer a range of customization options including:

- Delivery-based solutions to complement existing client infrastructure.
- Content provided at the geographical or portfolio holding level.
- Feeds containing particular formats, field content and integrated client level data items.

EDI uses its extensive data research expertise to source, scrub and integrate new client specified data items with existing products and services. For instance, a request from a multinational investment bank to source the DR universe and map it against its underlying share portfolio ultimately led to the development of EDI's successful Depositary Receipt Database.

In addition, EDI was the first vendor to successfully launch an ISO 15022 Corporate Action Messaging feed. This enables customers to reduce costs and increase efficiency by removing the need for multiple feed handlers.

Support

Customer Support

Monday - Friday
Open 24 hours

Saturday
Support Coverage ends 8am
(GMT)

Sunday
Support Coverage resumes at
11pm (GMT)

**Support Coverage is not
available**
Saturday 8am to Sunday 11pm

Call +44 207 324 0020

Email: support@exchange-data.com

Customer support is closed Christmas and New Year's Day.

We aim to acknowledge all queries within an hour of receipt and answer queries within 24 hours where possible.

We will send a progress report if a query is not resolved within that time-frame. We resolve around 95% of customer queries within 24 hours.

All queries sent to our Support department are filtered and dispatched to the relevant department. An IT staff member is engaged in the communication process to resolve complicated technical issues.
