

Central Bank Meetings Calendar

Helping the global financial community make informed decisions through the provision of comprehensive, accurate, timely and affordable securities and economic data services

With more than 30 years' experience, we offer comprehensive and accurate securities reference, corporate actions and pricing data for derivatives, equities, fixed income, and investment funds around the globe. We also cover economic data extensively.

We understand how crucial financial and economic data is and take a different approach as to how we proceed:

- We do not rent data, we sell it
- We do not have onerous redistribution rules
- We customize our services to meet your needs
- We cover all countries - no matter how large or small
- Finally, we offer competitive prices

As a result of our on-going commitment to providing cost-effective and innovative data solutions, while ensuring the highest standards, EDI has achieved the internationally recognized quality and security certifications ISO 9001 and ISO 27001.

Headquartered in the United Kingdom, we have operations in Australia, Canada, Germany, India, Morocco, South Africa, and the United States.

Our Support Team is available on +44 (0) 207 324 0020, 24 hours a day, Monday to Friday and closed on Christmas and New Year's Day.

Central Bank Meetings Calendar (CBCAL)

What is a Central Bank Meetings Calendar?

A **Central Bank Meetings Calendar** is a structured schedule that outlines the dates when major central banks around the world convene to discuss and decide on monetary policy. These meetings are crucial for financial markets, governments, businesses, and investors, as they often result in decisions that influence interest rates, inflation control, currency stability, and overall economic direction.

Purpose and Importance

Central banks are responsible for managing a country's monetary policy, which includes:

- **Setting interest rates**
- **Controlling inflation**
- **Managing currency issuance**
- **Overseeing financial system stability**
- **Acting as a lender of last resort**

The calendar provides transparency and predictability, allowing stakeholders to anticipate potential changes in monetary policy. For example, traders and investors use these dates to prepare for market volatility, while economists and policymakers use them to align fiscal strategies.

Key Features of the Calendar

- **Scheduled Meeting Dates:** Includes the exact dates for each central bank's policy meetings.
- **Time of Announcement:** Local time of the meeting is given where available.
- **Decision Announcements:** Typically, decisions (e.g., interest rate changes) are announced on the second day of multi-day meetings.
- **Press Conferences:** Some banks, like the ECB and Fed, hold press briefings post-meeting.
- **Frequency:** Varies by institution. For example:
 - Federal Reserve (USA) – 8 times/year
 - Bank of England – 8 times/year
 - European Central Bank – Monthly
 - Reserve Bank of Australia – 11 times/year
 - Reserve Bank of South Africa – 6 times/year

How to Use the Calendar

- **Investors:** Track potential market-moving events.
- **Businesses:** Plan financing and investment strategies.
- **Economists:** Analyses policy trends and economic forecasts.

Journalists & Analysts: Prepare coverage and commentary

Alerts and Notifications

Traders, investors, and analysts rely on Central Bank Meetings Calendar alerts to receive timely, actionable notifications on critical monetary policy developments, including interest rate decisions, policy pivots, and upcoming press conferences.

Missing these events can mean lost trades or unexpected volatility. Staying ahead of them starts with knowing they are coming.

These email alerts are sent directly to the client's inbox, with flexible advance notice options:

- Two weeks in advance
- One week in advance
- Two days in advance
- One week in advance
- One week in advance

Search Form and Download

- The Form allows you to search according to month, year or use custom dates.
- One year history is available with dates at least one year in advance.
- Any country(s) can be selected
- Selections can be downloaded into txt or csv format.

Customization

EDI is proud to offer the most effective and efficient solutions tailored to meet each individual customer's needs. We offer a range of customization options including:

- Delivery-based solutions to complement existing client infrastructure.
- Content delivered at the geographical or portfolio holding level.
- Feeds delivered in various formats, field content and integrated client level data items.

EDI uses its extensive data research expertise to source, scrub and integrate new client specified data items with existing products and services. For instance, a request from a multinational investment bank to source the DR universe and map it against its underlying share portfolio ultimately led to the development of EDI's successful Depository Receipt Database.

In addition, EDI was the first vendor to successfully launch an ISO 15022 Corporate Action Messaging feed. This enables customers to reduce costs and increase efficiency by removing the need for multiple feed handlers.

Support

Customer Support

Monday - Friday
Open 24 hours

Saturday
Support Coverage ends 8am
(GMT)

Sunday
Support Coverage resumes at
11pm (GMT)

**Support Coverage is not
available**
Saturday 8am to Sunday 11pm

Call +44 207 324 0020

Email: support@exchange-data.com

Customer support is closed on Christmas and New Year's Day.

We aim to acknowledge all queries within an hour of receipt and answer queries within 24 hours where possible.

We will send a progress report if a query is not resolved within that timeframe. We resolve around 95% of customer queries within 24 hours.

All queries sent to our Support department are filtered and dispatched to the relevant department. An IT staff member is engaged in the communication process to resolve complicated technical issues.
