

Economic Calendar

Helping the global financial community make informed decisions through the provision of comprehensive, accurate, timely and affordable securities and economic data services

With more than 30 years' experience, we offer comprehensive and accurate securities reference, corporate actions and pricing data for derivatives, equities, fixed income, and investment funds around the globe. We also cover economic data extensively.

We understand how crucial financial and economic data is and take a different approach as to how we proceed:

- We do not rent data, we sell it
- We do not have onerous redistribution rules
- We customize our services to meet your needs
- We cover all countries - no matter how large or small
- Finally, we offer competitive prices

As a result of our on-going commitment to providing cost-effective and innovative data solutions, while ensuring the highest standards, EDI has achieved the internationally recognized quality and security certifications ISO 9001 and ISO 27001.

Headquartered in the United Kingdom, we have operations in Australia, Canada, Germany, India, Morocco, South Africa, and the United States.

Our Support Team is available on +44 (0) 207 324 0020, 24 hours a day, Monday to Friday and closed on Christmas and New Year's Day.

What is an Economic Calendar?

The **real time calendar** is a schedule of important economic events and data releases that can affect financial markets and the broader economy. The calendar contains various indicators such as GDP data, inflation figures, employment, trade balances, business confidence and many more.

EDI Global Economic Calendar

EDI is committed to help clients make informative business decisions by providing the best economic information possible on an ongoing basis. Our **new Economic Calendar** contains key global economic events and data releases in a visually organized and easy-to-understand format. The EDI Economic Calendar consist of **195 countries** and over **20,000 unique indicators** which are divided into **12 topics**. Values are updated within minutes after the official release.

Purpose and Importance

The EDI Global Economic Calendar helps individuals and businesses **anticipate** important economic events, **prepare** for potential market movements, and **plan** more confidently.

- **Investors & traders** – timing trades and managing risk.
- **Business owners & managers** – planning sales, stock, and pricing.
- **Financial planners & advisors** – preparing clients for volatility.
- **Anyone tracking the economy** – staying informed and prepared.

Main Components of the Economic Calendar

Date & Time

- When the data or event is released.
- Time of the data or event release. The Time Zone can be manipulated.

Country/Region

- Shows which economy is affected (e.g. US, Eurozone, South Africa, China).
- Important because some economies have more global impact than others.

Topic

Maps the event into a specific Topic. (Search can be done according to a specific Topic)

Indicator / Event Name

Short description like:

- “Consumer Confidence”
- “Inflation Rate (CPI)”
- “Unemployment Rate”
- “GDP Growth”

Effective Date

The period/date of the value.

Unit

Measurement of the numerical value.

Base

The specific starting point in time used to compare index data over time.

Previous, and Actual

- **Previous:** Last published value.
- **Actual:** The latest number that is released.

Search Form and Download

- The Form allows you to search according to month, year or use custom dates.
- Historical events are available from 2024 and provide event dates and times up to 5 years in advance.
- Any country(s) can be selected.
- Any topic can be selected.
- Selections can be downloaded into txt or csv format.
- Email alerts are available to provide advance notification of forthcoming economic events.

Customization

EDI is proud to offer the most effective and efficient solutions tailored to meet each individual customer's needs. We offer a range of customization options including:

- Delivery-based solutions to complement existing client infrastructure.
- Content delivered at the geographical or portfolio holding level.
- Feeds delivered in various formats, field content and integrated client level data items.

EDI uses its extensive data research expertise to source, scrub and integrate new client specified data items with existing products and services. For instance, a request from a multinational investment bank to source the DR universe and map it against its underlying share portfolio ultimately led to the development of EDI's successful Depository Receipt Database.

In addition, EDI was the first vendor to successfully launch an ISO 15022 Corporate Action Messaging feed. This enables customers to reduce costs and increase efficiency by removing the need for multiple feed handlers.

Support

Customer Support

Monday - Friday
Open 24 hours

Saturday

Support Coverage ends 8am
(GMT)

Sunday

Support Coverage resumes at
11pm (GMT)

**Support Coverage is not
available**

Saturday 8am to Sunday 11pm

Call +44 207 324 0020

Email: support@exchange-data.com

Customer support is closed on Christmas and New Year's Day.

We aim to acknowledge all queries within an hour of receipt and answer queries within 24 hours where possible.

We will send a progress report if a query is not resolved within that timeframe. We resolve around 95% of customer queries within 24 hours.

All queries sent to our Support department are filtered and dispatched to the relevant department. An IT staff member is engaged in the communication process to resolve complicated technical issues.
